

Welcome! People are still arriving in Zoom.
We will get started in just a few minutes
after 12:00.

IOWA

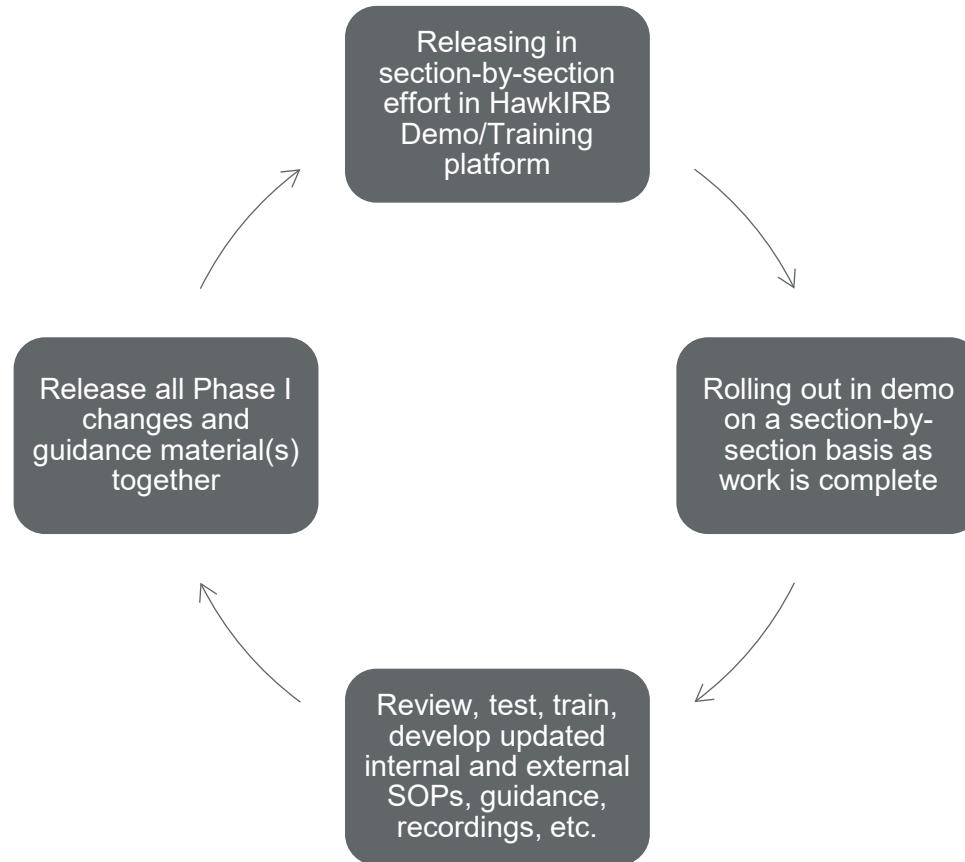

IRB Efficiency Initiative (IRB EI) – July

IRB Efficiency Initiative (EI) HawkIRB Application Redesign

-
- HawkIRB application redesign release schedule
 - What's next and what will change?
 - Demo of changes
 - Communication and resources

What Happens Before Changes Go Live?

Section I Multi Site Research Triggers

I.17 will appear for any option in I.5 except for Concept approval

- This is a change as it currently only appears when regular review is selected in I.5
- Will be able to reflect collaborative research relationship for Exempt and review with waiver under I.5

I.17 and I.18 will appear for external IRB submissions

- Allow an external IRB selected in I.1 to reflect collaborative research relationship

I.18.a will not appear when I.5 is exempt

- Iowa does not enter into a formal reliance relationship for multi site studies that meet exempt category of review.
- We will however track collaborative research for other HRPP reasons

2025 Phase I: HawkIRB Redesign Releasing August 16th!

Section II: Study Team

Section II will only be UI team members

sIRB Section: Multi Site research with Iowa as IRB of Record

Ability to capture relying institutions, organization, and individual details previously captured on PDFs.

Section III.5: COI

NEW Question If COI = yes, a brief description is now required.

Section VII.A: sIRB details

Moving PDF information required for sIRB relationship to HawkIRB

Section X: Privacy, Confidentiality and Security

Clarify how and where research data, specimens and materials are stored

Section XII: Future Use

Add detail regarding DMSP requirements (NIH funding)

HAWKIRB Section II - Single IRB (sIRB) of Record Expansion

Collaborative research when UI IRB asked to serve as single IRB of record

- Key institutional contacts
- Local context details to apply when extending oversight
- State laws
- Institutional policy(ies)

Enhancing Non-UI team Member detail

- Expand on changes to I.1
- Team member role, contact info (delegation log detail)
- Continue integration with Oncore, eReg and eDC
- Enhanced detail when individual investigator

HAWKIRB Section VII.A - sIRB enhancement

Transition from PDF (local context) forms to direct HawkIRB input

sIRB Communication Plan when serving as the lead site and IRB

One of the only sections that will remain primarily as free text field required responses

Section X: Privacy, Confidentiality, and Data Storage

Removal of
most required
free text field
responses

Focus on data
and specimen
storage options

Storage source
specificity

Sharing of data
outside the UI

Section XII-Future Use and Specimen collection

Identify future research\use implications

Future use external sharing detail

Incorporate long term data management and storage requirements

Research with federally funding or broad sharing requirements

How Will I be Impacted by the HawkIRB Changes?

All projects regardless of status are required to answer updated questions in Section(s) III, VII.A, X, and XII.

Existing IRB approved sIRB projects **will not** be required to update to the sIRB section.

New sIRB section only required on **new** project forms only.

What Else Will Change?

HSO Website

- Changes to HSO website pages and Educational Tools to update Section/Question references

Guides/SOPs

- Changes to Section reference updates in IRB SOP and Researcher Guide
- Other Guidance documents

ICON Recordings

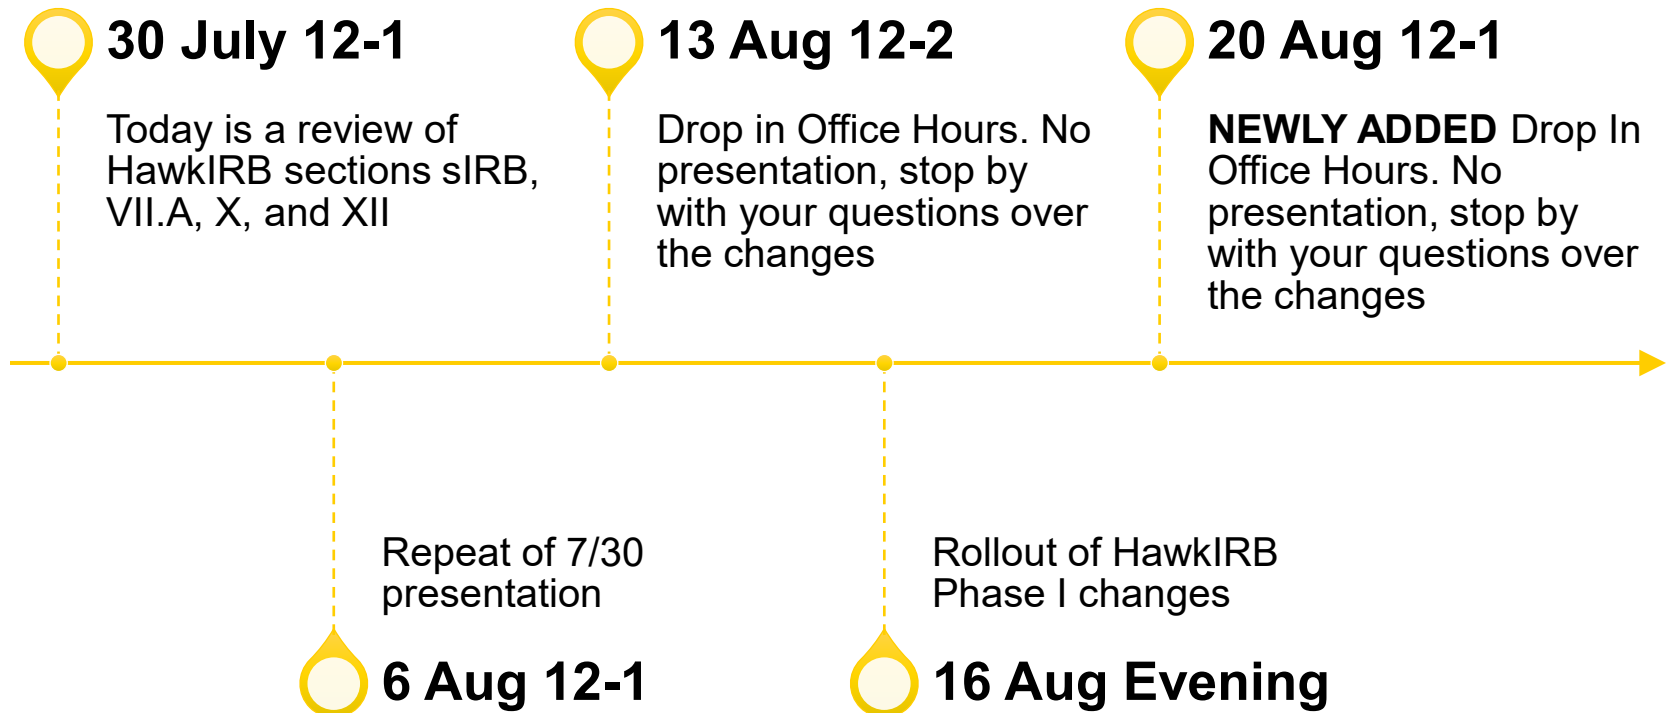

- Section by section recordings (Will be available at a later date)

HawkIRB DEMO

IRB EI Communication & Resources

Training Timeline for Phase I Rollout

IRB Efficiency Initiative Communication Plan
