Institute for Clinical and Translational Science

Justin Kahler, Deb O’Connell-Moore, Isabelle Neuhaus, Kim Sprenger, Joseph Spring, Patrick Ten Eyck

Biomedical Informatics Core
- Consulting
- My Cap
- RedCap
- Research Data Requests
- TriNetX
- UI BioShare

Biostatistics, Epidemiology and Research Design Core
- Study design and analysis
- Develop methodological innovations
- Investigator training

Clinical Research Unit
- Consultations
- Infusion bay area
- Laboratory services’
- Metabolic Kitchen
- Nursing services
- Phlebotomy room
- Specialty labs

ICTS Clinical Research & Trials Office (CRTO)
- The CRTO facilitates access to ICTS Cores:
  - Integrated and comprehensive data managements for clinical trial administration and execution
  - Increase access to clinical trial expertise
  - Help with new investigator startup
  - Help establish a referral process

Engagement, Integration, and Implementation Core
- Train and provide technical assistance on patient and community engaged research
- Link to provider networks
- Training and consultation on qualitative methods and implementation science
- Assistance recruiting from diverse populations

Mobile Technology Lab
- Send/receive text messages via SMS
- Send/receive images, video and audio files
- Data from Internet from things sensors

Regulatory Support Core
- Regulatory Assistance/Consulting
- Local & central IRB submissions
- FDA IND/IDE Consulting and Submissions
- Clinicaltrials.gov submissions

Research Study Coordinator Core
- Budgets
- Child health research support
- Data management
- Informed consent documents
- IRB applications
- Negotiate with sponsors
- Project coordination
- Subject recruitment

Workforce Development Core
- Academy for Research Professionals
- Clinical Lecture Series
- K Club, K Grant Writing Workshop
- KL2 Program
- MS in Translational Biomedicine
- Team Science training, Mentor & training development
- Early Scholars Certificate in Clinical & Translational Science
